ONE SEXY MEGADRIVE UP FOR GRABS! CALL 0898 334 150

it's great with the little 'uns, doesn't eat much and it won't pee on the carpet if you leave it in the house all day. It'a a big Sega Megadrive and we've got another of these Infinitely attractive machines to give away to one of our readers. Just think, over a hundred and fifty quid's worth of hi-technology, and you could get it all for the price of three pints, a round of sandwiches and the taxi fare home... actually, you'il only have to fork out for a stamp. Oh yeah, and the telephone call which you'il need to make if you want to hear the questions!

WIN COPIES OF E-MOTION! CALL 0898 555 537

We've got ten coplea of this superb piece of software to literally give away, thanks to US Gold and a lot of phone calls, headaches and near-nervous breakdowns - don't say we never do anything for you. So what do you have to do to win one of the games, be it on Amiga, ST, PC, Spectrum, C64 or Amstran? simply pick up the phone, dial the oumber, and keep your lingers creased yary, very tightty.

WIN A FERRARI F40! CALL 0898 555 538

Did we just say Ferrari F40? Sorry, we meant £150 pounds worth of software. Still, that's not so bad, is it? What do you mean, "Yes it is"! Look, okay, you can't drive around in £150 words of the software, but just think of the advantagea - you don't have to buy petrol for it, or wait for ten years before it actually arrives. And anyway, you're far more likely to have a Ferrari F40 pinched from outside your house. Anyway, you're not getting one, so you'il just have to ring the Hotline number and make do with the games, airlight?

WIN MANCHESTER UNITED - THE GAME! CALL 0898 555 539

Alex Ferguson won't be winning any prizes this season (with the poasible exception of the FA Cup - doubt it though!) but that doesn't mean that you can't be a winner if you enter the Manchester Utd comp, run in conjunction with the game a publishera, Krisalis. A bit of gentle perauasion cer the ghone and we've got FIVE hanch after United aporta holdalla and Ist copies of the Hitt footy management arm across Amig. ST, Spectrum. 65 and Amstrad formats. PC ENGINE ARCADE RIP-OFF?

Over the last year I've played on all the latest games machines, ie PC Engines, 16 bit Segas, Gameboys and the Lynx, not mention the Konix. All because I know Jeff Minter, Bul this letter concems PC Engines, Lately, Cardigan Arcade which is run by Furnes Automatics, has acquired a PC Engine Ihat has been modified to work as en arcade mechine. The problem is that the gemes are on e time limit and no metter how good or bad you are the game will reset after a certain

time. So everyone stays away, because the machine needs a constent supply of money (20p's) to stay on - is this legal? And does NEC know about it? I think it is scandalous end so does everyone else who ones to the arcade. At the moment. Nirsa Warriors is running and is a waste of time to play Please reply on this subject Paul

The C+VG Challenge Got a couple of records in

Got a couple of records in the highscore tables? Think you're a bit nifty with a joystick? Then here's the chance to really prove yourself in the

C+VG CHALLENGE!

Every month we'll be selecting a player to come down on an all-expenses paid trip to the C+VG offices in London to challenge one of the C+VG team - Paul Glancey, Paul Rand or Julian Rignall - on his favourite game. So get practicing - the C+VG team are no slouches when it comes to playing games - and fill out your top scores on the form below. If they're good enough, your scores will be entered into the C+VG Official UK Highscore Table, and, if you're really lucky, you could be selected to come down to London to test your mettle against one of the team!

Ontinuing from less month, here are the rest of our special prize of a real Turbo Outru notin only of See By gourse or a real Turbo Outru notin only of See By gourse war, simply get lest month's issue, check your personal number on the front cover and check the codes below using the code crecker below (we thought we'd better reprintit just in case you only kept your cover.)

HOW TO CRACK THE CODE

Inst of all grab a panel and some paper - and a calculator if you don't think your brain can cope with some simple addition sums. Now, write the following numbers across that up of the paper drawing a line down the page between each one:

1 2 4 8 18 32 64 128 256 512 1024 2048 4096 8192 16384 32768 65538 131072

Now you've got your Code Cracker! To convert the code number to a proper number, enter the code number undermeeth e, putting one number in each column like the example below. Then all you've got to do a add together the numbers thet have a 1 undermeth them and the proper number is enveated. Now you can see whether it matches your personal Megacomp Number.

Still confused? Well, let's take an example. We're using the first T-shirt number:

You put the code in like this...

Now edd up those numbers with 1 under them, so thet's 2+18+128+2048+16384+131072

And that equals... er.. 149650.

So if you have that number on the front of the megazine, you can claim for your prize by following the stape below. But before we get to that, here are more winning numbers!!

lika thie are as rera as one-leggad fieh, which is hardly surprising considering the triggerpumping tastes of most cone ole owners, but Herzog Zwai should hold the interest of all but the most mindiaes of biast-tana What acts it apart from other strategy gemes is the tact that averything happena in real lima. Both playars are in action aimulteneously and there are no pauces while decisions are taken ao you have to think on the move, or dia. The computer is a ruthlees, unremitting opponent evan on the inwest difficulty leval, eo you won't etand much of a chence until you've fully got to gripe with the different control modes and tha command Icons (thay're fairly easy to grasp, avenwithout English instructiona). With two players, Herzog Zwel is very pleyable, though, and it's good to eas another game het helps establish the Megadrive as a 'resi' computer, not just a machine for immobilised arcada players

Computer boxing gemes heve never been much to write home about and the only ones I ever enjoyed were the ones which injected some humour into the subject by using big. certoony boxer sprites with their own cherecteristic tighting style Digitel Champ has the big sprites, and very nicely designed they ere too, but the boxere only really ditfer in their punch strengthe end none seem to have any interesting style to distinguish them. They just bob and weeve ebout the ring unpredictebly so the only wey to be sure of smacking en opponent is to power-up e punch or jeb repidly until
